Vision

At Ashron we strive to educate our children in a safe, secure and loving environment to provide the foundation for maximum learning experiences in a happy environment.

Children need a relationship of trust and understanding with their teachers in order to feel safe and secure and this is the foundation of effective learning.

Ashron aims to instill a passion for learning and achievement in it’s students. We believe that each child is an individual and needs to be viewed as such in order to achieve their potential.

Dedicated teachers and caring assistant staff ensure that every child receives the best care and attention possible. All of our children enjoy a stimulating and playful routine during the morning.

We believe Peace of mind is priceless at school.

We are a team, and believe that the development of each child should be shared responsibly between the parents and the teacher. We, therefore, encourage you, as the parent, to become involved in the education of your child. We have an open door policy and would appreciate all comments and suggestions. Your child will be cared for and taught by dedicated teachers and experienced child minders. We are proud to provide

a caring, safe environment for your child, one which ensures optimal learning experiences.

We include Actionball, which is a sport and fitness programme . These lessons take place in the morning, so that all kiddies can take part.

Children are given a mid-morning snack of seasonal fresh fruit, yoghurt, muffins or oat biscuits and are provided with a YUMMY substantial, healthy cooked meal at lunch-time. We strive to incorporate sustained energy (Low GI) foods in our meals, in order to promote a healthy lifestyle and to optimize learning.

After sleep time, the children are given a treat of biscuits and juice. For those children staying full day, a late afternoon snack of brown bread sandwiches is supplied.

As we enter upon a new journey of discovery and growth, we are truly excited and committed to unlocking the full potential of each child in our care.
