Cedar Crest Nursery School specialises in early childhood development. The School offers a reliable, safe and loving environment, providing programs that promote the child's social, emotional, physical and intellectual growth; using new and cutting edge methodologies. The school provides a structured educational curriculum from ages 2 to pre-school, along with strong components of spiritual and moral values.

The Cedar Crest Nursery School management and staff recognise that children are growing up in a fast paced, challenging and cosmopolitan world, where children at a young age can experience stress. We believe that these children need to be equipped with tools to deal with these challenges in early childhood and progressively.

We believe that growing productive well-adjusted adults and future leaders starts at a young age. To accomplish this goal, we believe in creating an environment that is free of stress and prejudice of any kind.

Our focus is to create an environment where children will foster and attitude that makes them feel encouraged, excited and expectant, with a zeal for life. We will achieve this through the combination of our cutting edge curriculum and teachers who foster a relationship with the children based on love, motherly nurturing, honesty and a robust approach to teaching.
