Playdayle is a relatively small school, thus allowing our staff to provide quality care and individual attention to our children. Our pre-primary teaching staff are all Degree or Diploma Qualified in Foundation Phase Education. We continually strive to provide an exceptionally high standard of education, while keeping abreast of innovative technology and advancements in the education sector.

Simultaneously, we recognise the importance of the holistic development of the child. Our aim is that every child who attends Playdayle will be encouraged to be developed in the **Spiritual, Emotional, Physical** and **Academic** areas of their lives. Most important of all is that every child who attends Playdayle will leave with a healthy self-image and the assurance that he or she is unique and very much loved. Religious Instruction forms an important part of our daily activities with a strong emphasis on providing our children with a loving Christian environment where they can thrive as little people in every facet of their development. Pre-schoolers will have the opportunity to attend a Children's Church service each week during the academic term.

We recognise the need for quality childcare and peace of mind for working parents, and thus provide you with the option to enrol your child on a **half-day** or **full** day basis as well as offering extended hours of operation from **07:00** to **18:00**. All full day children are provided with an afternoon sandwich or healthy snack.

Unlike most schools, we are open for 4 weeks of the school holidays, inclusive of your monthly school fee. During this period, we also offer an exciting holiday programme to older siblings up to Grade 3 on a casual basis.

OUR EDUCATIONAL PROGRAMME

Each class works according to **weekly themes**, utilising modern teaching methodologies in our School Readiness Programme, with the most current RNCS (**Revised National Curriculum Statement**) and **CAP** learning techniques as our reference point.

We recognise that much of the child's learning takes place through **incidental learning, play** and **interactive activities** and thus have broadened the learning experience outside of the classroom. Our teaching methods combine the best of the more structured educational techniques as well as encouraging more independent learning while utilising various methods characterized by an emphasis on independence, freedom within limits, and respect for a child's natural psychological, physical, and social development.

We extend the classroom into the broader community by ensuring our children go on regular **Educational Outings**.

At Playdayle we emphasise the importance of the **Creative Arts** with **Music, Dance & Drama** forming an integral part of our curriculum and our learners are encouraged to participate in **Speech** through Show-and-tell. To further support the importance of **Cultural** and **Creative Development**, drama and movement are extensively used in the classroom and our children are encouraged to take part in our regular school productions. In addition, we offer Ballet-tots as well as the Wiggle and Jam Music and Movement Programmes as extra murals.

Teamwork & Technical Skills are re-enforced through group projects and **Logical & Lateral Thinking** are encouraged through classroom and outdoor projects and experiments. For the growing need for mental stimulation and early development in **Maths & Science**, we offer Build-em-Brix as an extra mural. This provides children with an early training platform where they will learn various skills ranging from basic colours, shapes and numbers to more advanced technical and architectural proficiencies.

Entrepreneurial Skills are taught through the introduction of E.M.S. (**Economic Management Science**) and of course **Creativity** through daily arts and craft activities. Furthermore, we offer a **Fine Motor Enrichment Programme** which is presented by a **Registered Occupational Therapists** as well as the services of a **Registered Speech Therapist** at our premises.

To encourage Physical Development, we offer Sporting Academy where children are taught the techniques and rules of specific ball sports such as cricket, soccer and softball. We also have a well-equipped playground providing numerous opportunities to every child to develop gross motor dexterity.

We encourage **Social Responsibility** in our children through their participation in several charities and community programmes. Each year Playdayle adopts an impoverished preschool in our local community which our children support by donating toys, books and clothes to. We also teach and encourage our children to take care of the environment by planting trees and recycling paper and waste.

Playdayle is within close proximity to **Bergvliet, Meadowridge, Diep River, Plumstead and Constantia**.

Should you be interested in viewing our school, please don't hesitate to contact the principal to schedule an appointment. For more information find us on [FACEBOOK](#) under Playdayle Pre-primary School
